TALKING POINTS

ADCI Breakfast with Secretary of Defense Weinberger and
Deputy Secretary of Defense Carlucci, Tuesday, 29 December 1981

NFIP Budget

The increased resource requirements for fiscal years 1984-1987 to implement the President's endorsement of intelligence capability upgrades have been provided to A1 South in the OSD Comptroller's office. The IC Staff has been told that the implementing Program Budget Decision document (PBD 338C2) was discussed by the OSD Comptroller, Jack Borsting, with Deputy Secretary of Defense Carlucci but no update of Defense totals was made. It appears that DoD officials are unsure of the impact the intelligence increases would have on the President's budget control totals for Defense. Did the President's endorsement for intelligence increase DoD control numbers? Is OMB action needed to increase the DoD control totals? ☐

The question of similar increases for the funding to implement the capability upgrades ☐ needs to be settled to assure NFIP funding within the Defense budget. ☐

MEMORANDUM FOR: Acting Director of Central Intelligence
FROM: Chief, Interdepartmental Affairs Staff, OPP
SUBJECT: DoD Budget and 85 Capabilities Study

1. I just received a call from [] who is currently acting for [] who said that he has learned that Mr. Carlucci balked at putting budget numbers in the computer relative to the 85 Capabilities Study because he had not yet been briefed. Bill asked whether this should be included as a breakfast item for tomorrow. I mentioned that you prefer to handle such items apart from the formal breakfast meetings. I encouraged him, however, to send us ASAP a brief note on the issue so that you can decide how to handle it. []
